DC4081x

40" Color Surgical Display

***Clinically Focused, Advanced,
Easy to Experience***

Designed for tableside guidance during Hybrid OR, CVOR, and EP lab cases

CIRRO
MEDICAL SYSTEMS

DC4081x | 40" Color Surgical Display

The DC4081x 40" 4K Surgical Display is the ideal choice for progressive surgical environments desiring 4K team viewing of multiple sources in their native resolution. When combined with

TLGC's Multi-Display Manager (MDM), the DC4081x improves workflow and ergonomics within the Hybrid OR, EP Lab and Interventional Suites.

Clinically Focused

Designed to enhance procedure guidance and ergonomics during minimally invasive procedures, this 8MP LED display delivers vivid, precise, and consistently uniform video through;

- 3840x2160 resolution improves visualization of fine details.
- Ultra-high brightness and contrast improves depth perception and deep cavity details.
- **ClearView^{AR}** delivers clear, crisp images to reduce eye fatigue.

Advanced

Configured with industry leading Surgical Ready features, the DC4081X is designed the most demanding medical environments. The combination of the DS4081x and MDM supports user preferred multi-image layouts.

- AR Glass protects against impact from surgical field equipment.

Easy to Experience

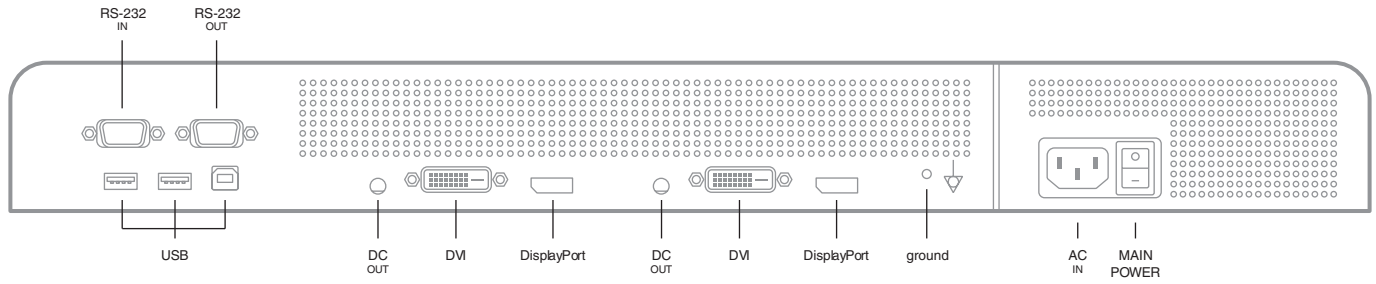

The DC4081x is lightweight medical grade display that is easy to install, operate, and maintain. Built with proven componentry and established manufacturing practices, each DC4081x is thoroughly tested prior to Customer shipment and is backed by TLGC's commitment to quality and satisfaction.

- 40" wide angle screen improves viewing ergonomics and comparative and magnified viewing.
- Device Control Interface with preset selection improves workflow and intuitive operation.
- IEC 60601 and international certifications for medical use.
- UHD/4K Connectivity via Dual Link DVI-D and Dual Display Port.
